🏠 [linkedin.com/in/jackielimn](https://www.linkedin.com/in/jackielimn)

📍 Minneapolis, Minnesota

Motivated full stack software engineer with a passion for learning with strong communication skills, work ethic, and accountability. Seeking to obtain a deeper understanding of software development while also exploring new technologies.

## Education

### University of Minnesota - Twin Cities

Minneapolis, MN

*Masters of Science - GPA: 4.0 - Magna Cum Laude - 2023-2024*

*Bachelor of Science - GPA: 3.84 - Dean's List All Semesters - 2020-2023*

## Experience

### Software Engineer at [Cenex Harvest States \(CHS\)](#) 2022 - Present

- Working as a full stack software engineer, I develop responsive front-end components, create restful APIs, and construct custom backend database operations.
- Follow the Scrum and Agile Methodologies as well as introduce and guide other team members on best practices and procedures.
- Maintain a robust unit and end-to-end testing suite through a continuous integration pipeline.
- Actively provide code review feedback and train new team members.
- Optimize API call performance within applications.

### Undergraduate Teaching Assistant at [University of Minnesota - Twin Cities](#) 2021 - 2022

- Led office hours and discussions for hundreds of students.
- Graded multiple classes worth of homeworks and exams.
- Taught algorithms and data structures to students.
